Profile

Junior Software Developer with hands-on experience in designing and building full-stack web and mobile applications. Strong focus on practical, product-oriented development through independent projects, a startup, and professional internship experience. Experienced in taking ownership of features and systems from planning to implementation. Currently seeking a long-term, practice-oriented internship with active contribution to real software projects.

Practical Experience & Projects

Founder & Software Developer – Independent Product Projects   *01/2025 – Present*

Product 1: **Sustainable Marketplace App***(Prototype)* **React Native · Node.js · Express.js · MongoDB**

- Designed and developed a full-stack mobile application inspired by "Too Good To Go" concept
- Implemented core application logic, user authentication, data modeling and REST APIs
- Developed UI components and navigation flows with a focus on usability
- Built a functional prototype covering frontend and backend architecture

Product 2: **Quiz Verse – Mobile App** *(Ongoing)* **React Native · Node.js · Express.js · MongoDB**

- Developing a scalable mobile application with quiz formats and gamification elements
- Full ownership of frontend, backend, database design, and overall system architecture
- Implemented authentication, database integration, and API communication
- Continuously extending features and preparing the app for App Store release

Frontend Development Intern – abcfinlab   *06/2025 – 07/2025*

- Worked within a frontend team on an **Angular-based** web application
- Developed **end-to-end tests** using **Playwright**
- Supported quality assurance processes and bug analysis
- Independently familiarized with new tools and testing methodologies in a professional development environment

Technical Skills

Frontend & Mobile**:** JavaScript · TypeScript · React · React Native (Expo) · Angular (Testing)

Backend & Databases**:** Node.js · Express.js · MongoDB

Testing & Tools: Angular (Testing) · Playwright · Git · GItHub

Additional Experience**:** Python (Django) · Java

Education

Comenius Gymnasium - Düsseldorf
Expected completion of Q1: 07/2026
Completion of the academic part of the University of Applied Sciences entrance qualification (Fachhochschulreife)

Languages

Russian & German (native) · English (good working proficiency) · Azerbaijani (good proficiency)
